

Completed Theses 1992 – 2005

Name	Year	Degree	Title
Williams, E	2005	MPhysio	The reliability and validity of the Timed-up-and-go (TUG) test in children
Gorgon, E	2005	MPhysio	Mobility in older persons in an Australian aged care unit
Malcolm, D	2005	MPhysio	Is eccentric exercise more effective than passive stretching for spastic equinus in stroke patients?
Murray, K	2005	PhD	Incidence, assessment and management of vestibular dysfunction
Hill, C	2005	PhD	Measurement of arm function in patients with chronic obstructive pulmonary disease
Haines, T	2005	PhD	Prevention of falls in the subacute hospital setting
Scholes, R	2005	PhD	Pulmonary risk prediction in the upper abdominal surgery population
Goldshmit, Y	2005	PhD	Role of EphA4 receptor in spinal cord regeneration
Huguenin, L	2004	MSpMed	Dry needling of gluteal muscles
Thomason, P	2004	MPhysio	Measuring parent perception of change in motor function in children with cerebral palsy
Crompton, J	2004	MPhysio	Functional Strength and Endurance Training in Children with Cerebral Palsy
Takarini, N	2004	MPhysio	The Timed Up and Go Test in Indonesian Children
Setiawan	2004	MPhysio	Academics' and students' approaches to learning at the Academy of Physiotherapy, Surakarta, Indonesia
Walkenhorst, H	2004	MPhysio	The Inter-rater reliability of the Pusher Scale
Matthews, B	2004	PhD	Exercise and skeletal health in childhood and adolescence
Holland, A	2004	PhD	Chest physiotherapy in cystic fibrosis: effects of non-invasive ventilation and expiratory flow limitation
Eldridge, B	2004	PhD	Remote activity monitoring in

			children
Hinman, R	2003	PhD	The role of knee taping in the management of symptomatic knee joint osteoarthritis
Gabbe, B	2003	PhD	Risk factors for lower limb injuries at the community level of Australian football
Basuki, N	2003	MPhysio	Current physiotherapy management for patients undergoing upper abdominal surgery and cardiothoracic surgery in Indonesia
Urquhart, D	2002	PhD	Regional variation in morphology and recruitment of the abdominal muscles: implications for control and movement of the lumbar spine and pelvis
Tully, E	2002	PhD	A new model for image based analysis of sagittal plane posture and movement
Schache, A	2002	PhD	The three dimensional angular kinematics of the lumbo-pelvic-hip complex during running
Murphy, C	2002	MPhysio	Investigation of transabdominal diagnostic ultrasound in the conservative management of pelvic floor dysfunction
Hoekstra, B	2002	MPhysio	Rural employment: attitudes and perceptions of allied health students and graduates
Fosang, A	2002	MPhysio	The effect of lower limb botulinum toxin A injections on the gross motor function of young children with cerebral palsy
Ford, J	2002	PhD	Classification of lower back pain
Flynn, C	2002	PhD	The clinical recognition of lumbar intersegmental instability
Byers, C	2002	MPhysio	a concurrent investigation of anatomical and behavioural sequelae in a peripheral nerve injury model
Zito, G	2001	MPhysio	A musculoskeletal profile of headaches
Zheng, Z	2001	PhD	Psychophysical studies on the age differences in capsaicin-induced hyperalgesia in humans
Warden, S	2001	PhD	The skeletal effects of low-intensity pulsed ultrasound
Denehy, L	2001	PhD	The physiotherapy management of patients following upper

			abdominal surgery
Crossley, K	2001	PhD	Physiotherapy treatment of patellofemoral pain
Cowan, S	2001	PhD	Motor control of the vasti in patellofemoral pain syndrome
Stillman, B	2000	PhD	An investigation of the clinical assessment of joint position sense
McCormack, L	2000	MPhysio CW and minor thesis	The effect of an abdominal training device on muscle activation measured with surface electromyography
Friend, N	2000	MPhysio	Breathe right nasal strips: their effectiveness during aerobic and anaerobic exercise challenges
Bills, C	2000	MPhysio	A randomised controlled trial of a home gravity traction device and exercise
Wajswelner, H	1999	MPhysio	Muscle action and stress on the ribs in rowing
Wagh, P	1999	MPhysio	Lumbofemoral rhythm during unilateral active hip flexion in standing in young adults and children
Kelly, D	1999	MPhysio	Crossing cultural bridges: education for physiotherapists working with survivors of torture and trauma
Keating, L	1999	MPhysio	The effect of wheelchair self-propulsion by hemiplegic patients on spasticity and function
Button, B	1999	PhD	The incidence of gastro-oesophageal reflux in patients with cystic fibrosis; implications for optimal cardio-respiratory physiotherapy management
Anbiah, R	1999	MPhysio	Effect of gravity assisted drainage on peak flow rates and sputum clearance in ventilated patients
Williams, S	1998	MPhysio CW and minor thesis	Hydrotherapy in an inpatient stroke rehabilitation programme
Stanic, M	1998	MPhysio CW and minor thesis	An investigation of the upper limb tension test in hemiplegia
Moore, R	1998	MPhysio	A comparison of home and hospital based therapy for treatment of respiratory exacerbations an adult cystic

			fibrosis
Harvey, A	1998	MPhysio CW and minor thesis	An investigation of the clinical test for sensory interaction in balance in young children
Fock, J	1998	MPhysio CW and minor thesis	The localised management of spasticity
Farrell, M	1998	PhD	Pain and hyperalgesia in osteoarthritis of the hand
Champion, B	1998	MPhysio CW and minor thesis	Upper limb movement and function after stroke
Bathurst, C	1998	MPhysio	The hip to lumbar relationship during hip flexion in standing
Bartram, S	1998	MPhysio CW and minor thesis	The test retest reliability and relationships between five patellofemoral outcome measures
Vale, S	1997	MPhysio CW and minor thesis	A kinematic analysis of forward reaching to a stationary object
Page, C	1997	MPhysio CW and minor thesis	Comparison of the skeletal effects of resistance exercise in young and mature rats
McRae, F	1997	MPhysio	What is spasticity? Is it successfully managed by physiotherapists?
Hodgson, C	1997	MPhysio	The acute effects of manual hyperinflation in ventilated patients
Hill, K	1997	PhD	Studies of balance in older people
Ferguson, C	1997	MPhysio CW and minor thesis	An investigation of metabolic and cardiovascular responses to physiotherapy treatment in stable, mechanically ventilated intensive care patients
Bilney, B	1997	MPhysio CW and minor thesis	Predictive factors for gait velocity in the early period following stroke
Limpanyakul, P	1996	MPhysio	Can variability in pendulum test responses be reduced by repeated testing?
Bygott, I-L	1996	MPhysio	Investigation of gravity correction in electro-mechanical trunk dynamometry
Limpanyakul, P	1995	PGDip	Test retest reliability of a video based version of the pendulum test in a spastic stroke population
Hart, P	1995	PGDip	Functional outcome following

			orthopaedic trauma: a twelve month follow-up study
Crossley, K	1995	MPhysio	A comparison of ground reaction force in male runners with and without a history of tibial stress fracture
Baxter, A	1995	PGDip	The effect of a single hydrotherapy session on joint range of motion in the juvenile chronic arthritis population
Barker, V	1995	PGDip	An investigation of radiologists' reliability in diagnosing and staging osteochondral lesions of the elbow using magnetic resonance imaging
Soderberg, L	1994	PGDip	The effect of training frequency on knee strength in older hospitalised subjects following three weeks of isokinetic exercise
Sjogren, T	1994	PGDip	A comparison between group land and group hydrotherapy treatment for chronic low back pain
Roche, P	1994	PGDip	Gait parameters of the health elderly
Roberts, S	1994	MPhysio	The effects of manual chest wall vibrations on the critically ill adult with acute lung atelectasis
O'Connor, M	1994	PGDip	Measurement of circumference and length of the lower limb using a tape measure: evaluation of reliability and validity
Berlowitz, D	1994	PGDip	A comparison of the effects of nasal and face mask continuous positive airways pressure on oxygen saturation in hypoxemic patients
Bygott, I-L	1992	PGDip	Establishment of the reliability of a trunk strength testing protocol using the KinCom in uninjured female nurses
